Ref.: Quimidroga takes a new and important step forward in its commitment to the Food Sector

Dear Sirs,

As you will surely know, Quimidroga has been supplying for many years a wide range of ingredients and additives to the Food Sector in the Iberian Peninsula.

With the strong determination to offer our customers and partners the most complete and integral service, we are pleased to inform you that Quimidroga has reached an agreement with the company BDN INGENIERÍA DE ALIMENTACIÓN, S.L. located in Barcelona (<https://bdnfood.com>) and has proceed to acquire 100% of its shares.

With almost three decades of existence and engaged in consultancy services and technical assistance to customers, BDN provides a full range of solutions in R&D, formulation of new products in pilot plant, training, etc., etc. For this purpose, BDN relies on a highly qualified professional team as well as a state of the art application laboratory, fully equipped with a complete working instrumentation.

Quimidroga's commercial and technical experience together with BDN's high research and development capacity, will allow to place the Quimidroga Group Food team, ready to face the new challenges and future needs in such an important sector as it is Food.

We remain at your disposal for any additional information or data that you may need. You can reach your regular contact or send us an email to aliment@quimidroga.com.

Yours faithfully,
